SAFETY MANAGEMENT

Safety is more than a compliance issue, it is about developing and maintaining a safety-conscious culture so that employees can recognize and understand risks, and use their initiative to respond as necessary. We are focused on the elimination of fatalities across our projects and on achieving continuous improvement in safety measures.

The health and safety of our employees is of fundamental importance. We believe our companies should create safe, challenging, and fun workplaces. Our commitment is to the well-being of our people, wherever they are and whatever they are engaged in.

ENVIRONMENTAL MANAGEMENT

We operate an Environmental Management System which enables us to achieve and demonstrate our environmental concern and protections, whilst maximizing the potential for environmental improvement and performance. We aim to be at the forefront of the industry in reducing the impact of all our activities on the environment.
